

Computerized Index to Philippine Periodical Articles (CIPPA)

Introduction:

The Computerized Index to Philippine Periodical Articles(CIPPA) is subscribed from the Ateneo de Manila University starting 2003 and is available for annual subscription, in CD-Rom format or through online access. A database of periodical articles from nearly 200 titles of academic journals, national newspapers, and magazines published in the Philippines and overseas. The articles are carefully selected and indexed in order to provide information about the Philippines, specifically, politics, economics, places and events, entertainment, social trends, editorials and columns, special features, and prominent and influential personalities in different fields. The database provides article citations and bibliographic information on articles appearing from Philippine periodicals from 1988- up to the present.

Visit or go to ismis.usc.edu.ph, click **journals & references** (here is seen the list of subscribed online databases) then choose **Philippine Periodical Articles**.

The following Location Symbols are observed:

| | |
|--|--|
| CSC – Cebuano Studies Center | SLG Lib – School of Law & Governance Library |
| Educ. Lib - Education Library | SL – Serials Library |
