PATHFINDER

for

LANDSCAPE
ARCHITECTURE

www.library.usc.edu.ph

April 2015

Introduction

A ***Pathfinder*** is a guide to the literature and resources in a particular subject area. It is a subject-oriented research guide designed to encourage researchers a self-directed use of the library.

The Humanities Section provides pathfinders basically to support students and faculty in their search for recorded literature and resources available at the USC Library System and accessible on the Net.

Should you have comments, questions and suggestions on this pathfinder, please contact the Humanities Section 2300.100 local 197 or email to humanities.uscblrc@gmail.com

Key Term: Landscape architecture

Scope Note: *A profession encompassing both the natural and built environments. It involves a multidisciplinary design work composed of some understanding of soil science, civil engineering, landscape ecology, architecture, horticulture, arboriculture, botany, irrigation systems, land planning, transportation planning, environmental issues, art, drafting, etc. Those adequately trained in this profession have a well-rounded knowledge of the natural and built environment useful in managing multidisciplinary developments or land planning efforts.* (Source: Christensen, Alan Jay. (2005). *Dictionary of landscape architecture and construction*. New York: McGraw-Hill.)

Related Term: Horticultural service industry
Landscape gardening
Landscaping industry

Narrower Term:	Decks (Architecture, Domestic)	Landscape architectural services
	Desert landscape architecture	Landscape construction
	Garden lightning	Landscape design
	Garden structures	Patios
	Gardens, English	Roadside improvement
	Hedges	Urban landscape architecture
	Hillside landscape architecture	Water in landscape architecture
