

## How to Listen to a Podcast

Source: <http://serialpodcast.org/how-to-listen>

A podcast is essentially a radio show that you can get on the internet, so you can listen any time you want. You have two options: you can listen to a podcast through a website (this is called streaming). Or, you can download a podcast, which means you're saving it on your phone, or tablet, or computer, and you can listen to it anytime, even without an internet connection.

To Stream: Go to a website, like [serialpodcast.org](http://serialpodcast.org), and click the play button.

To Download: Get it delivered to your phone or tablet each week using an app.

- For iPhones and iPads, use the [Podcasts](#) app. You get it from the App Store (it actually comes installed on newer devices). In the Podcasts app you search for *Serial* and then hit subscribe.
- For Android phones and tablets, try the [Stitcher](#) app. Get that from Google Play. In Stitcher, search for *Serial* and click the plus sign (+), to add it to your Favorites List. Now go to the Favorites List. Tell it to download new episodes by clicking the gear in the upper right corner.
